This steam-heated boiling cookers are applicable for cooking soups, vegetable-dishes, pasta, milk-food or tea without burning them, and for steaming meat, fish, vegetable, mushroom, or defrosting and steaming frozen, or semi-finished food in catering-kitchens and in hospitals. The pan is not suitable for roasting or frying.

steam heated boiling cookers

MODEL: CBPS 200, 300, 400

High quality components from Europe

Boiling pans are made entirely of stainless steel

The scrapers are made of high tech materials that are not toxic and not damage the taste of the product and decrease its value in accordance with the standards of food products.

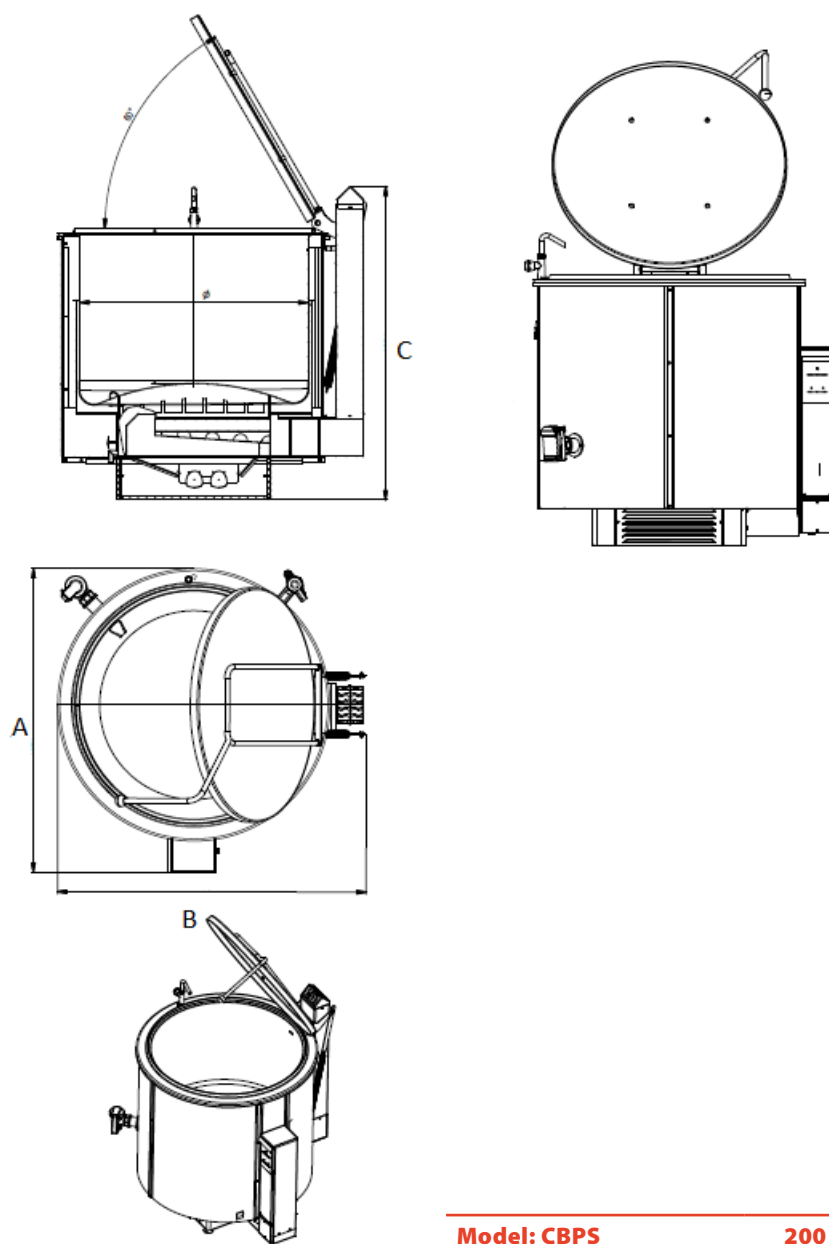

Cookers of 100 and 150 litres are manufactured with the beloved round basins, while the 200 and 300 litre ones are manufactured with square basins, which make the application of Gastro-Norm sized dishes suitable for cooking, steaming, heating in them.

TECHNICAL FEATURES:

- indirect heating is guaranteed to be nonburning.
- dual safety system ensure harmless long-term condition
- the start and end of the heating system is automatic
- high performance
