

## NORMIT SMU-Y

 **Y-shaped mixer**

 **Zmiešavač tvaru Y**

 **Mikser w kształcie y**

*This type is intended for thorough mixing with maintaining of structure the free-inserting the product with relatively low power consumption and a short mixing time.*

NORMIT company develops and manufactures various equipment for the food, cosmetic, chemical, pharmaceutical and construction industries. We are the market leader in the production of technological equipment. We place high demands on quality and pays special attention to the introduction of innovative technologies.

### BENEFITS OF PRODUCT

- ✓ Parts are mixed thoroughly
- ✓ These mixing minimize the negative impact of the centrifugal force
- ✓ Continuous regulation of speed of rotation of the mixing device by frequency converter enables optimal and efficient method of mixing
- ✓ Reduction of the time of mixing compare with conventional mixers
- ✓ Easy to use and control

### TECHNICAL PARAMETERS

Model	SMU-Y-50	SMU-Y-100	SMU-Y-150	SMU-Y-200	SMU-Y-250	SMU-Y-300	SMU-Y-500
Capacity	35	70	110	140	180	230	380
Power, kW	0,5	0,75	1,1	1,5	2	3	5.5
